Change Notification

Contec Sterile ProChlor, Contec Sterile CyChlor, Contec Sterile HydroPure
Contec Sterile ProKlean, Contec Sterile HydroKlean

Additional irradiation providers

Dear Distributor

Contec Sterile HydroPure, Contec Sterile HydroKlean, Contec Sterile ProChlor, Contec Sterile ProKlean, and Contec Sterile Cychlor are aseptically filled products with validated gamma irradiation carried out on all the raw materials before manufacture in a Grade B cleanroom.

Due to a shutdown at our validated irradiation site, Steris Daventry, UK, we needed to introduce two further irradiation sites for these products.

Details of change

To ensure continued manufacture and supply and also cope with significant increases in demand for these products we have introduced two further sites for the irradiation of raw materials prior to sterile fill.

Both sites are part of the Steris group of companies and operate under the same quality system as the current approved site of Steris Daventry. Both sites are ISO 13485 compliant, please see certificate attached and meet the requirements for ISO 11137-1 and ISO 11137-3 Sterilisation of Healthcare Products - Radiation

Both sites have been approved through our standard procedure for supplier approval and added to our Approved Supplier list. The validated irradiation processing is conducted on the bottling components prior to the sterile fill operation. Use of the additional Steris irradiation sites does not impact form, fit, or function or the quality of the finished product.

Details of sites

Current Site

Synergy Health Sterilisation UK Ltd
(a STERIS Company)
Brunel Close
Drayton Fields Industrial Estate
Daventry
NN11 8RB
UK

Additional sites

Synergy Health Ede B.V.
(a STERIS Company)
Morsestraat 3
6716 AH
Ede
Netherlands

Synergy Health Sterilisation UK Ltd
(a STERIS Company)
Roysdale Way
Euroway Industrial Estate
Bradford
BD4 6SE
UK

Date of change

To maintain supply during the shutdown of the Synergy Health site at Daventry this change has already taken place. Any of the product codes highlighted in table 1 may be supplied with raw material components gamma irradiated at any of the three irradiation sites listed above.

Product codes affected

Please see Table 1 for a list of the product codes affected by this change.

Regions affected

This change affects all regions these product codes are supplied in.

If you require additional information concerning this notice, please do not hesitate to contact your Contec Sales Representative.

Yours faithfully,

Table 1 Products affected by this change

| Part Number | Description |
|--------------|---|
| SBT102PC | Contec Sterile ProChlor, Trigger Spray, 1L |
| SBC102PC | Contec Sterile ProChlor, Capped 1L |
| SBC502PC | Contec Sterile ProChlor Capped, 5L |
| SBT100CC | Contec Sterile CyChlor, Trigger Spray, 1L |
| SBC100CC | Contec Sterile CyChlor, Capped 1L |
| SBC500CC | Contec Sterile CyChlor Capped, 5L |
| SBC0702PC | Contec Sterile ProChlor 700 ml Bottle |
| XSWPP02PC | Contec ProChlor SATWIPE Canister |
| SBT16HPW | Contec Sterile HydroPure, Trigger Spray, 1L |
| SBC16HP | Contec Sterile HydroPure, Capped 1L |
| SBC56HP | Contec Sterile Hydropure Capped, 5L |
| SSWC16HP | Contec SATWIPES with HydroPure Canister |
| SBT16HPW-ANZ | Contec Sterile HydroPure, Trigger Spray 1L |
| SBC56HP-ANZ | Contec Sterile Hydropure Capped, 5L |
| SSWC16HP-ANZ | Contec SATWIPES with HydroPure Canister |
| SBT102PC-ANZ | Contec Sterile ProChlor, Trigger Spray, 1L |
| SBC502PC-ANZ | Contec Sterile ProChlor Capped, 5L |
| SBT34PK | Contec Sterile ProKlean, Trigger Spray 1L |
| SBC170PK | Contec Sterile ProKlean, Capped 5L |
| SBT34HK61R | Contec Sterile HydroKlean, Trigger Spray 1L |
| SBT34HK61RJ | Contec Sterile HydroKlean, Trigger Spray 1L (Japan) |
| SBC170HKLE | Contec Sterile HydroKlean, Capped, 5L |
| SBC170HKLEJ | Contec Sterile HydroKlean, Capped, 5L (Japan) |
